## COVERING BY SHORTS MARKET ROW CROWDED HOLDS MARKET FIRM

for Growing Crops Cause of Easy Opening.

CHICAGO, April 18.—Wheat opened easy because of rains over the parts of Kanspa and Nebraska which have been badly in need of moisture. Shorts covetted eagerly on the decline and the market soon became firm. Builish sentiment continued to increase on the close of the asssion. The buying of May developed that the new crop deliveries had been oversold and the carry issues were more than recovered. Heavy covering by shorts of July and September held the bulge. It was estimated today that the Sorid's shipment for next week will be about 6,896,000 busnels, against 12,656,000 for the same week last year, and this caused a firm feeling at the close. May opened iffic lower at 91% 711c, sold between 91c and 35c and closed at 9216,930.

at \$25093c.

The corn market was comparatively heavy. The opening was firm, because of the continued smaller receipts, but prices weakened under offerings. Local traders also sold the July option freely. The market stiffened a little in the last hour. May come opened unchanged to ic lower at \$55c, sold between \$65c and \$75c and closed at \$65065c.

The coats market opened lower because of selling by commission houses and pit traders, but the market railled quickly along with wheat and the loss was recovered. May outs opened unchanged at \$55c, sold between \$55c and \$52c, and closed at \$55c.

covered. May outs opened unchanged at 55%, sold between 55% and 52%, and closed at 55%.

The provisions market opened firm because of an advance of 10c in the price of live hogs, and then eased off slightly from, the top because of a poor demand for cash product, and on selling by local packers. At the close May pork was 10c nigher; lard was 5c up, and ribs were 75c higher.

stalls were crowded with industrious housekeepers from early morning until long after sundown.

In abundance of good things appeared on every stand in the row and every line of eatablet sold exceptionally well. Strawberries took another tumble and were offered at the rate of two boxes for 25 cents; in fact, several dealers were selling them as low as 10 cents a box.

Meat and fish were plentiful but the changed. Considerable spring lamb was purchased, but the greatest demand was for discussed beef and mutton. Lemons descended to 20 cents a dozen.

The statement of the banks and trust companies of Greater New York not members of the clearing house shows that these institutions have aggregate deposits of \$\$19,710,590; total cash on hand, \$\$5,008,000, and loans amounting to \$\$365,272,260

deposits of \$\$19,710,590; total cash on hand, \$55,008,000, and loans amounting to \$806,372,200.

The Financier will say.

The surplus reserve in the New York clearing house banks, according to the statement of their actual condition issued Saturday. Is \$53,256,050, an increase of \$5,048,075 since the last previous report. This is the highest surplus reserve reported in over ten years and is due to the continued heavy remittances of cash from the interior and to a lesser extent to the losses which the treasury is making up to the banks on account of currency deficiencies. The gain in cash made by the associated banks last week was \$9,937,100. Loans decreased \$2,159,200, and deposits rose \$7,556,100. This was on the report of actual conditions. The statement on averages covering six days operations showed materially different figures; the average increase in deposits alone having been \$20,000,000, but the actual figures reveal the true condition of the banks, the old system of averages being misleading in this respect. The continued flow of money from the interior and the accumulation of cash which the banks are making from other sources is not as healthful a sign as might be imagined, for the simple reason that it shows an excess of liquid funds above the needs of business, and the exports of gold which began last week are a logical consequence of the supplus of cash at this center. Just when further withdrawais of public deposits in banks by the government will be made is uncertain, but with the losses which the treasury is reporting, for reasons already outlined, a recall of public deposits would be rearried very complexed to the large and the servers. eriment will be made is uncertain, but with the losses which the treasury is reporting, for reasons already outlined, a recall of public deposits would be regarded very complacently by the banks. Indications of any return flow of money from New York to the interior to meet the spring crop requirements are still waiting, but this movement cannot be much longer delayed, althoug its volume is problematic. Money rates in New York are now down to those of European centers, and very narrow fluctuations will increase the exports of gold or stop it. The banks and trust companies not reporting through the clearing house made substantial gains in all items last week, due in part to the inclusion of the figures of one of the failed Brooklyn trust companies, which has resumed business. The actual cash reserve of the clearing house banks is now 29.28 her cent, that of the trust companies 30.4 per cent, and of the State banks 27.03 per cent.

## SPRING THE TIME FOR QUICK CURES

START RIGHT-YOU MAY NOT HAVE A SECOND CHANCE.

Sick people should remember that a mistake in selecting their Physician cannot be reckoned by the MONEY LOSS ALONE—for in serious ailments if a mistake is made there may not be time to RECTIFY THE ERROR.

Disease does not wait—and people who try first one Doctor and then another—siways concluding that if one Doctor fails they can still secure another—must remember THEY MAY NEVER HAVE THE SECOND CHANCE—and should be sure THE FIRST TIME that the Physician selected is the most competent and most successful Doctor procurable, regardless of his charges.

HOW TO TELL THE FRAUD FROM THE REPUTABLE SPECIALIST.

Everybody who needs Medical Ald would select the best Doctor if they know HOW—but where every fraud and Fakir claims as much skill as the Honest Experienced Specialists they find it hard to select the best—to tell the true from the false.

HERE IS THE TEST-APPLY IT.

If a Doctor will deceive you in his advertising he will deceive you in his office. If he makes statements that are palpably false and misleading BEWARE OF HIM—for he will surely treat you the same way. If you are impressed with the Claimsput forth by ANY Physicians Specialists, Company, institute or firm—READ EVERY LINE IN SUCH ANNOUNCEMENT. Ask yourself if every statement is TRUE—ask yourself if every statement made is REASONABLE—ask yourself if the chaims made are such as are recognized as true and possible by the Medical Profession as a whole, and if you find that claims are made that are untrue, unreasonable or utterly impossible THEN REMEMBER THAT THE MAN WHO MAKES SUCH UNTRUE AND IMPOSSIBLE CLAIMS is unworthy your belief and all statements he or they make are likewise unworthy your belief. USE COMMON SENSE—and ALYZE AND THINK OVER THE CLAIMS MADE BY EACH AND EVERY DOCTOR—and then select only those who stick to the plain unvariabled truth, and back up every statement by unquestioned proof.
